3. COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name | CAS-No | Weight % |
|------------------|-----------|----------|
| Stoddard solvent | 8052-41-3 | 60-100 |
| 2-Butoxyethanol | 111-76-2 | 5-10 |

4. FIRST AID MEASURES

General Advice Call 911 or emergency medical service. Remove and isolate contaminated clothing and

shoes.

Eye Contact In case of contact with substance, immediately flush skin or eyes with running water for at least

20 minutes.

Skin Contact Wash skin with soap and water.

Inhalation Move victim to fresh air. Apply artificial respiration if victim is not breathing. Administer oxygen

if breathing is difficult.

Ingestion Call a physician immediately. Do not induce vomiting without medical advice. Never give

anything by mouth to an unconscious person.

Notes to Physician Keep victim warm and quiet.

Protection of First-aiders Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves.

5. FIRE-FIGHTING MEASURES

Flammable Properties Flammable liquid.
Flash Point 48°C / 118°F

Suitable Extinguishing Media Dry chemical, CO2, water spray or regular foam. Water spray, fog or regular foam. Use

water spray or fog; do not use straight streams. Move containers from fire area if you can do

it without risk.

Unsuitable Extinguishing Media CAUTION: All these products have a very low flash point: Use of water spray when

fighting fire may be inefficient

Hazardous Combustion Products

Explosion Data

Hydrocarbons, Carbon oxides.

Sensitivity to mechanical impact Not sensitive

Sensitivity to static discharge Yes Specific Hazards Arising from the Chemical

Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Vapor explosion hazard indoors, outdoors or in sewers. Those substances designated with a "P" may polymerize explosively when heated or involved in a fire. Runoff to sewer may create fire or explosion hazard. Substance may be transported hot.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). All

equipment used when handling the product must be grounded. Do not touch or walk through

spilled material. Stop leak if you can do it without risk.

Methods for Containment A vapor suppressing foam may be used to reduce vapors. Absorb or cover with dry earth, sand

or other non-combustible material and transfer to containers.

Methods for Clean-up

Use clean non-sparking tools to collect absorbed material. Dike far ahead of liquid spill for later

disposal.

Other Information Water spray may reduce vapor; but may not prevent ignition in closed spaces.

HANDLING AND STORAGE

Handling Ensure adequate ventilation. Keep away from open flames, hot surfaces and sources of

ignition. Take precautionary measures against static discharges. Use only in an area

containing flame proof equipment. To avoid ignition of vapors by static electricity discharge, all

metal parts of the equipment must be grounded.

Storage Keep tightly closed in a dry and cool place. Keep in properly labeled containers. Keep away

from heat and sources of ignition.

Personal Protective Equipment

Eye/face Protection Skin Protection Respiratory Protection Safety glasses with side-shields.

Wear fire/flame resistant/retardant clothing. Impervious gloves.

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance

with current local regulations.

General Hygiene Considerations

When using, do not eat, drink or smoke. Wash hands before breaks and at the end of workday. Regular cleaning of equipment, work area and clothing.
