

Black Magic™

Spec Sheet #S00058
June 2002

Asphalt Paint

DESCRIPTION

Concentrated, fast drying, high gloss, black asphalt paint. Contains extra high concentration of Gilsonite for permanent waterproof and rustproof protection. **Black Magic's** protective coating prevents corrosion on furnaces, boilers, railings, structural elements, storage tanks, steam and hot or cold water piping, and sheet metal. Weather resistant. Can be used for surfaces of wood, metal and masonry in interior and exterior applications.

SIZES AND PACKING

Black Magic™

Black Magic™ Asphalt Paint

APPROVALS AND LISTINGS

Federal Spec: TT-C-494 & FF-H-C-494.
Military Spec: Mil-C-16173D.

SPECIFIC USES

Use **Black Magic** to rustproof and waterproof many surfaces, such as concrete, wood or metal.

SPECIFIC APPLICATIONS*

Black Magic provides a corrosion protecting coating on furnaces, boilers, storage tanks, steam and hot or cold water piping, railing, structural elements and many more interior and exterior applications.

PHYSICAL PROPERTIES

Solubility in water: Negligible.
Appearance/color/odor: Black liquid; mild aliphatic odor.
Specific Gravity: 0.91 to 1.0

WARNINGS OR CAUTIONS

- Read all cautions and directions carefully before using product.
- **Keep out of reach of children.**
- Contains mineral spirits and asphaltic cutback.
- Combustible mixture. Do not use near fire or flame.
- Harmful or fatal if swallowed.
- Avoid prolonged breathing of vapors. Exposure to high concentration of vapor may cause headache and dizziness.
- Avoid contact with eyes or skin. Prolonged skin contact can lead to dry and irritated skin, possibly causing dermatitis.

DIRECTIONS FOR USE

Apply only to dry surfaces which are free from dirt, dust, grease, scale and other foreign matter. If surface to be painted is rusty, scrape clean or use brush. For best results apply even, thin coat with brush or roller. Especially effective at preventing corrosion of metal in contact with masonry.

Note: Concrete or grout will not adhere to surfaces coated with **Black Magic**.

DO NOT use **Black Magic** on surfaces which are exposed to direct flame or high heat as in flue pipe. In extremely cold weather, if **Black Magic** gets too thick to brush on evenly, thin with any good grade of mineral spirits (1 pt. per gallon) or store in warm place.
