

Extreme™ Propane and MAPP Torches TurboTorch has developed a new series of hand torches that also feature Extreme Swirl Technology. The new Extreme series generates more heat than other hand torches for faster brazing times and less gas consumption. All Extreme series hand torches and tips feature TurboTorch swirl combustion. Higher heat levels, in a short amount of time, enable the pros to quickly complete the job.

Extreme™ Self Lighting Torches Select from two models depending on the job. The TX 503 series is a “cooler” torch, making it ideal for general plumbing jobs. The TX 504 series is suitable for HVAC and high capacity applications. Both models feature convenient self-lighting triggers, quick disconnect couplings between handle and tips.
