

The ICM515 is an economical, dual voltage Surge Protector.

Protects Against...

- Lightning power surges
- Voltage surges from air conditioners, generators, motors...

Features

- Easy installation
- Low cost, high performance
- Weatherproof housing
- Rugged, reliable

Mode of Operation

Surge protectors are designed to protect your equipment by dissipating momentary voltage spikes and transient power surges from lightning.

Surge Protection for

- Refrigeration systems
- Motors
- Air conditioners
- Appliances
- Electronics

Specifications

Service voltage

- 120/240 volt, single phase

Maximum Surge Current

- 24000 amps

Maximum Energy Dissipation

- 200 Joules

Installation Point

- Electrical panel
- Electrical disconnect

AC protection Modes

- Line-line, Line-ground

Size

- 1.75" X 1.62" X 0.75"

Weight

- 0.20 lbs
