All 1/4-turn stops are listed with UL in
compliance to the NSF 61 Section 9 standard

The new Brass Craft 1/4-turn water stop offers reliable performance, superior quality and exceptional value.

PERFORMANCE you need.

A patented, one-piece mechanism provides years of smooth, 1/4-turn operation without freeze-ups.

Proven tough. The new-generation of 1/4-turn stops was field and laboratory tested under conditions far tougher than those encountered in normal use. These stops provide, fast, convenient and reliable 1/4-turn operation with positive shut-off and full water-flow.

QUALITY you demand.

Made in the USA from machined brass rod to the highest quality standards. These advanced 1/4-turn

Made in the
USA

stops are designed for strength, durability, styling and lasting appearance.

Every stop is 100% leak tested to ensure reliable, leak-free operation.

VALUE you can count on.

Brass Craft's 1/4-turn stops offer an outstanding value by combining patented 1/4-turn technology, durable construction and proven performance at an affordable price. Backed by service that only the industry leader can provide, these Brass Craft stops are the new twist in quarter-turn.

The name you trust. No one builds water stops like Brass Craft, the brand plumbers trust to provide world-class performance and service. It's trust we've been building with professional plumbers for over 50 years. When it comes to innovation, quality and reliability, professionals look to Brass Craft.

The options you need. Brass Craft's new 1/4-turn stop is available in straight and angle styles with a variety of inlet options: compression, iron pipe, CPVC and barbed inlet for PEX.
