### Technical Data

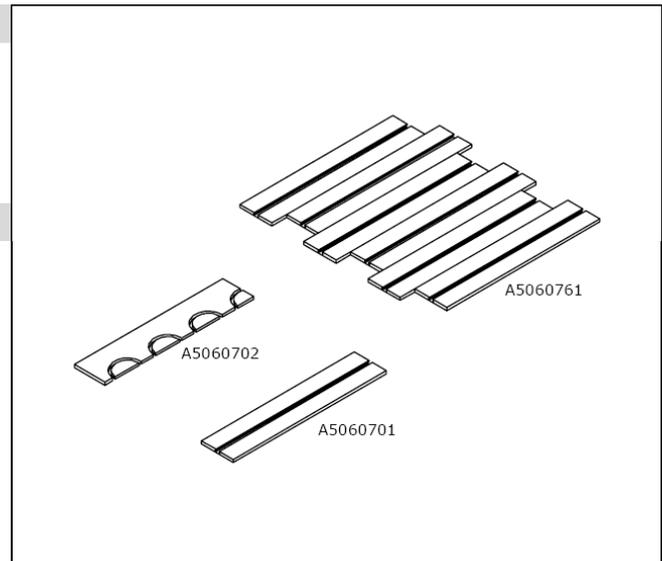

Material: 1/2" plywood with aluminum backing

### Product Information and Application Use

The 1/2-inch plywood panels are attached to an aluminum heat transfer sheet. Use with 5/16" Wirsbo hePEX™ plus tubing only.

Cut your labor in half with Uponor's fully assembled Quik Trak® panels, which consist of six panels fastened together with strapping tape. The panels are staggered 2 inches on both ends to aid alignment. Use with 5/16" Wirsbo hePEX plus tubing only. One package includes six panels.

Quik Trak Return Panels are designed with a U-shaped groove to complete tubing turns. Each return panel is shipped with a separate aluminum sheet for installation beneath the panel. Use with 5/16" Wirsbo hePEX plus tubing only.

✓ Description	Part Number	Length	Width	Thickness	Weight
Quik Trak 7" x 48" Panels	A5060701	48.0"	7.0"	0.5"	2.90 lbs.
Quik Trak 7" x 48" Return Panels	A5060702	48.0"	7.0"	0.5"	2.90 lbs.
Quik Trak 7" x 48" x 6 Panels (fully assembled set)	A5060761	48.0"	7.0"	0.5"	17.35 lbs.
		(±2" offset)	(x 6 panels)		

### Installation

Place Quik Trak panels on floor surface. Make sure to stagger the seams. Secure one side of the panel with a screw on each end to allow for quick realignment of panels. After properly placing the panels, secure each one with 10 screws (5 on each side of the groove). Clean any debris from the panel grooves. Apply a thin (1/8") bead of 100% silicone Quik Trak sealant throughout the entire length of the groove. The silicone acts as an adhesive agent promoting good heat transfer from the tubing to the panel. Install the tubing according to the design. For additional information, refer to the Uponor Quik Trak Installation Manual and the Uponor Radiant Installation Handbook.
