BAYweb® relay

Features

✔ Remote Control
✔ Scheduled Control
✔ Personal Web Portal
✔ Dedicated Mobile Interface
✔ No Recurring Costs
✔ Plug-N-Go™ Networking

Remote Access

Anytime, anywhere, access via web browser or web-enabled mobile phone.

Simple Connectivity

Bay's Plug-N-Go™ networking technology enables you to utilize all of the Internet-based capabilities by simply plugging it in to your network. No networking experience is required.

Smart Phone Support

Dedicated portals designed for most major phones like the Apple iPhone provide access to your things from just about anywhere.

Web Remote Control

The BAYweb Relay provides the ability to remotely control your stuff from anywhere using a web browser or mobile phone.

Simple to Install and Use

Just plug the web relay into your Internet connection and wire in the appliance or other device to be controlled.

Scheduled Control

In addition to remote control, you can also set up a weekly schedule of when to turn the relay on or off. The schedule is easily set up and modified using the web portal.

Applications

- Lighting
- Outdoor Signs
- Water shut-off valves
- Water Heaters
- Anything else controlled by a switch

Personal Web Portal

Operate your web devices anytime, anywhere, via web browser or web-enabled mobile phone. Unlimited use of the BAYweb portal is included at no additional charge. This state-of-the-art portal provides real time monitoring and control for an unlimited number of BAYweb devices.

Specifications

Part Number: BW-BCU6
Relay Ratings (Maximum)

Normally Open Contacts:	10 Amps at 125 VAC
	3 Amps at 250 VAC
	5 Amps at 30 VDC
Normally Closed Contacts:	3 Amps at 125 VAC
	3 Amps at 30 VDC

Shipping Temperature Range:	-40° to 150° F
Operating Temperature Range:	0° to 120° F
Operating Relative Humidity:	5% to 90% (non-condensing)
Power Requirements:	12 VDC, 0.05 Amps maximum
Dimensions:	4" W x 4" H x 1.25" D
Weight:	4.5 oz
