**ProPEX® AUTO
ROTATION ADAPTER**

LAUNCH SHEET

Secure Your Connections With the ProPEX® Auto Rotation Adapter

Making ProPEX® connections is now simpler than ever, thanks to the new ProPEX Auto Rotation Adapter (Q6323810). Developed by Uponor, the adapter automatically rotates the expander head on each expansion to avoid creating grooves on Wirsbo

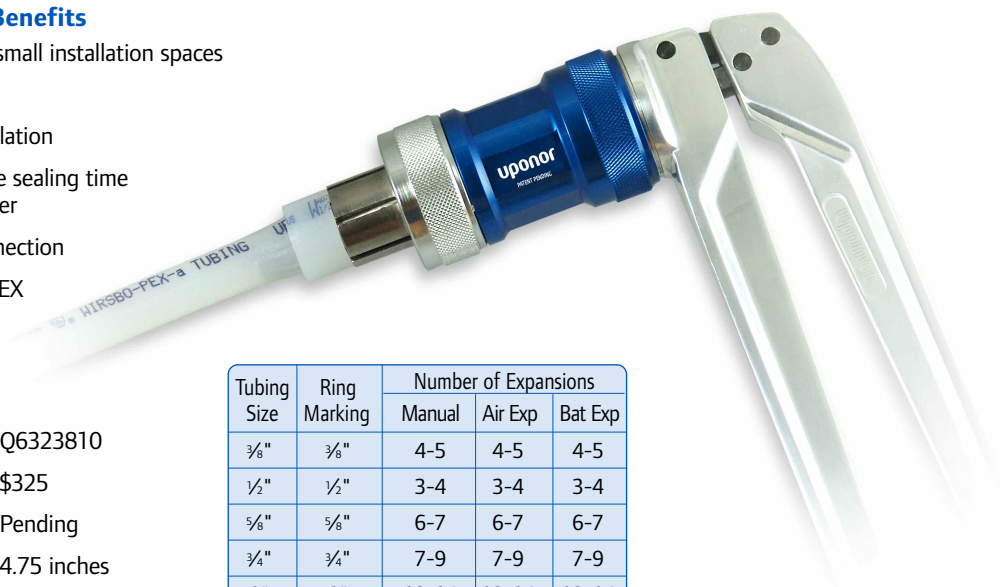

AQUAPEX® tubing and Wirsbo hePEX™ plus tubing. This alleviates the need for installers to manually turn the tubing.

Fitting easily into tight installation spaces, the lightweight ProPEX Auto Rotation Adapter expands $\frac{3}{8}$ ", $\frac{1}{2}$ ",

$\frac{5}{8}$ ", $\frac{3}{4}$ " and 1" tubing, fits on all ProPEX Expander Tools (manual, air and battery, except for the ProPEX 200 Battery Expander Tool) and is compatible with all standard expander heads. (Note: H-heads are not compatible with the adapter.)

Features and Benefits

- Fits easily into small installation spaces
- Lightweight
- Simplifies installation
- Can help reduce sealing time in cooler weather
- Consistent connection
- Fits on all ProPEX Expander Tools

Part Number: Q6323810

List Price: \$325

Patent: Pending

Length: 4.75 inches

Width: 1.9 inches

Height: 1.9 inches

Weight: 10 oz.

Diameter: 1.9 inches

Tubing Size	Ring Marking	Number of Expansions		
		Manual	Air Exp	Bat Exp
$\frac{3}{8}$ "	$\frac{3}{8}$ "	4-5	4-5	4-5
$\frac{1}{2}$ "	$\frac{1}{2}$ "	3-4	3-4	3-4
$\frac{5}{8}$ "	$\frac{5}{8}$ "	6-7	6-7	6-7
$\frac{3}{4}$ "	$\frac{3}{4}$ "	7-9	7-9	7-9
1"	1"	12-14	12-14	12-14

Note: Expander head may not rotate after each expansion on 1-inch tubing. This will not impact the quality of the connection.
