

Universal Replacement Parts

Honeywell

The Only Thing We Can't Replace Is You.™

The right part at the right time, every time

THE UNIVERSAL ADVANTAGE IS MORE THAN THE SUM OF OUR PARTS

Every system is only as functional as its individual parts. When even a single part stops working, the whole system can shut down. That's why your customers rely on you to service and repair their systems – effectively and efficiently. You can rely on Honeywell to give you a replacement resource that keeps overhead low and customer satisfaction high. That's because Honeywell Universal Replacement Parts single-handedly replace hundreds of OEM parts, so you only need to carry one product-type rather than multiple brands across multiple categories.

UNIVERSAL STARTS WITH YOU

Honeywell's Universal Replacement Parts solution is driven by you. We asked the questions, you provided the answers – the result is a solution designed to help you reduce inventory and service time like never before. To help you work faster and smarter, allowing for more service calls, fewer callbacks and greater revenue. We understand how important it is to have the right part at just the right time. The key is a universal approach. Honeywell's growing suite of replacement parts provides incredible compatibility and unmatched reliability. When you need it most.

HONEYWELL IS YOUR UNIVERSAL ANSWER

More and more distributors and contractors are recognizing the advantages of universal replacement. Instead of having to stock and travel with a vast assortment of products to manage direct and like-for-like replacements, now you can invest in a time-friendly series of products from a trusted name in the industry. That means always having the part you need for your customer. No additional service trips or overstocked shelves. Just the right part from the right company – Honeywell, the leader in universal replacement parts.

Honeywell

Intro

Universal Electronic Oil Aquastat®

This newly advanced, complete integrated digital "quick-fix" programming, which means no additional programming. And with additional smart features like watchdog circuits – this control

Universal Electronic Oil Aquastat® L7224U1002

Our L7224U Aquastat product's broad range and flexibility covers a variety of applications and needs, allowing multiple mounting and configuration capabilities. You can also reduce your customers' fuel consumption by adding an AquaReset® Kit to enable the outdoor reset energy saving functionality.

Electronic Ignition Gas Valve VR8345M/Q/H

This universal product offers wide-capacity control for almost any IP, HSI or DSI gas-fired appliances. Its compact fit simplifies field replacement.

Universal Electronic Fan Timer ST9120U1011

The ST9120U Universal Electronic Fan Timer replaces most previous Honeywell fan timers making it the only one you will need! The new universal platform will not only integrate control of all combustion blower and circulating fan operations in a gas warm air appliance but also save you time and money with its diagnostic LED and continuous EAC and HUM terminal connections.

Universal Standing Pilot Gas Valve VR8300/VR8200

The standing pilot model delivers combination gas controls for use in 24 Vac, gas-fired, standing pilot appliances with wide capacities. It includes safety shutoff, manual valve, two automatic operators, pressure regulator and pilot adjustment.

Universal Ignition

Update an old ignition with ease. It comes complete with a standing pilot

Well Universal Replacement Parts

roducing 12 distinct products with universal compatibility.

Electronic Digital Oil Primary R7284U1004

etely universal control unit has an
indicator for easy diagnostics and
additional tools to access information.
s like the redundant burner relay and
unit is more reliable than ever before.

Universal Thermocouples Q340A

The Q340 family of thermocouples generate 30 mV in standing
pilot applications providing enough energy to power a gas valve.
They are designed for long life and durability.

Universal Hot Surface Ignition Module S8910U1000

The S8910U Universal Hot Surface Ignition module offers
easy field, as well as a single-rod or dual-rod systems,
and LED diagnostics and field-adjustable ignition timings.
It replaces over 650 Honeywell and competitive products.

Glowfly® Q3200U2002

Glowfly® is the universal hot surface igniter made from next
generation silicon nitride. It replaces more than 110 installed
silicon carbide models, with a superior universal bracketing
design and one-of-a-kind visual cross-reference packaging.
Pick up a six pack and light up your igniter business!

SmartValves™

Honeywell SmartValves combine gas flow control
and electronic ignition into a single unit providing
simplified wiring, appliance construction and safety.
Honeywell SmartValves can be found on a wide array
of heating equipment.

Universal Integrated Furnace Control S9200U1000

Our S9200U Universal Integrated Furnace Controls
replace more than 140 single-stage hot surface
ignition furnace controls offering universal
application and robust diagnostics.

Intermittent Pilot Retrofit Kit Y8610U6006

standing pilot system to electronic
with our Y8610U retrofit kit. The kit
with everything you need to convert
pilot system to intermittent ignition.

Universal Intermittent Pilot Ignition Module S8610U3009

The S8610U offers replacement compatibility of more than
400 Honeywell and competitive models. This control works in
both single or dual rod systems and features field selectable
prepurge and ignition trial timings.

Honeywell – The Universal Brand You Trust

As an industry leader in innovation and new product development, Honeywell is always working to provide solutions that make your job easier and more profitable. No one knows universal solutions like Honeywell. Our family of products has both the largest breadth and depth of offerings in the industry. Our full line-up of universal products reaches across almost any application, which makes Honeywell the only brand of replacement parts you'll ever need.
