

Engineered Plastic (EP) Heating Manifold Mounting Bracket

Submittal Information

Revision A: Oct. 15, 2008

Project Information

Job Name:

Location: _____ Part No. Ordered: _____

Engineer: _____ Date Submitted: _____

Contractor: _____ Submitted By: _____

Manufacturer's Representative: _____ Approved By: _____

Technical Data

Material: PA66-GF15

Product Information and Application Use

The Engineered Plastic (EP) Heating Manifold Mounting Bracket attaches to a wall to hold the EP Heating Manifold assembly or single manifolds for use in hydronic radiant heating and cooling systems. The manifold assembly simply snaps into the bracket. Use only propylene glycol in radiant systems with EP Heating Manifolds; never use ethylene glycol.

<input checked="" type="checkbox"/>	Description	Part Number	Length	Width	Depth	Weight
<input type="checkbox"/>	EP Heating Manifold Mounting Bracket, set of 2	A2670006	13.6"	1.0"	2.2"	0.4 lbs.

Installation

Select the proper bracket spacing for the manifold and mount the bracket to the wall. Snap the manifold to the bracket. See the installation manual for complete instructions. **Note:** Use only propylene glycol in radiant heating and cooling systems with EP Heating Manifolds; never use ethylene glycol. Refer to the EP Heating Manifold Installation Guide for a complete chemicals list.
