Let Bryant Stretch Your

A Legacy of Setting Standards

Bryant® has been setting higher standards for American homeowners since 1904.

Through the commitment and dedication of our product development and manufacturing teams, we have consistently met every new challenge head-on and delivered the products to meet or exceed expectations. Today, as consumers strive to cut monthly costs without affecting their daily comfort, Bryant proudly offers a high efficiency gas furnace that squeezes extra mileage from every dollar you spend on heating – the Plus 90™ gas furnace.

The Bryant Plus 90 provides the soothing warmth of gas heat winter after winter. It delivers reliability backed by a lifetime limited warranty on the heat exchangers. And, it saves significantly on heating costs with extra energy efficiency

of up to 95.5% AFUE. Designed, built and backed by the most trusted name in the business, and installed by your trusted and professional Bryant dealer, the Plus 90 provides the comfort and efficiency you and your family deserve.

Not Your Average Furnace

Bryant's Plus 90™ keeps your home warm and comfortable while going above and beyond the efficiency of your typical furnace. While standard furnaces feature one heat exchanger and the ability to achieve industry minimum AFUE efficiency, the Plus 90 goes one step further. Bryant's patented secondary heat exchanger helps transfer an additional 11 - 15% of the available heat into your home for money savings, energy efficiency and comfort.

Better comfort through ventilation control

The Plus 90 improves comfort all year long through ventilation control with Bryant's Fan On Plus™ technology. Fan On Plus lets you select from three different continuous fan speeds at the thermostat so you not only control temperature, but airflow as well. And, with continuous fan operation, you'll enjoy cleaner air as well by constantly drawing air through your system's filter.

Quiet, High Quality Comfort

With the Plus 90™, you can relax and enjoy the comfort of your home because this is one of the quietest gas furnaces of its kind. A sealed combustion system, redesigned door and vibration-absorbing grommets and cabinet seals not only keep noise to a minimum, but also represent the detailed craftsmanship and attention to fit and finish you get when you choose Bryant.

In addition, Bryant's Plus 90 delivers the peace of mind that comes with choosing a system designed, built and backed by a company committed to customer satisfaction. From initial design through product testing and an assembly process that includes thorough reliability testing procedures, we go beyond the industry's expectations for quality to be sure that every unit we make measures up to even tougher standards – yours.

Heating Dollar.

Warranty

To the original owner, the Bryant Plus 90 model 350AAV gas furnace is covered by a 10-year parts and lifetime heat exchanger limited warranty upon timely registration of your new equipment.* The secondary heat exchanger carries a 20-year labor limited warranty. Ask your Bryant dealer about optional extended warranties, which may include labor.

*Warranty period is 5-years on parts and 20-years on heat exchangers if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts limited warranty and a lifetime parts limited warranty on the heat exchangers. See warranty certificate at bryant.com for complete details.

Extra Efficiency

As extra efficiency is extracted for heating, condensation occurs in the secondary heat exchanger. Inside, our patented Everlastic™ polypropylene laminate resists corrosion for long-lasting durability.

Enjoy Comfort and Peace of Mind

Bryant offers a complete line of easy-to-use thermostats that improve the efficiency and reliability of your indoor comfort system. Ask your Bryant dealer how one of our thermostats can improve the value of your heating and cooling system.

Performance

As an ENERGY STAR® Partner, Bryant Heating & Cooling Systems has determined that this product meets the ENERGY STAR® guidelines for energy efficiency.

Home Comfort Components

- 1 EXTRA GAS EFFICIENCY**
Our secondary heat exchanger extends heat transfer for higher efficiency use of heating fuel. It is protected by our patented Everlastic™ coating for lasting corrosion resistance and durability.
- 2 RELIABILITY**
Bryant's Perfect Light™ igniter is one of the most reliable and robust hot surface igniters available so you can count on heating when you need it.
- 3 RESPONSIVE OPERATION**
This advanced control reliably and responsively activates system operation. It is the key to Fan On Plus™, Bryant's adjustable constant fan function and SmartEvap™, which reduces summertime humidity by nearly 10% over standard systems.
- 4 QUIET, DRAFT-FREE COMFORT**
Our sealed combustion system virtually eliminates drafts and allows quiet operation by using outdoor air for combustion.
- 5 IMPROVED INDOOR AIR QUALITY**
Our standard air cleaner cabinet accessory helps enhance the quality of your indoor air. When installed as a part of your system, this cabinet allows the easy and convenient addition of a Bryant high-efficiency air filter.
