

- Provides more foam than any condenser coil cleaner in the market
- Ultimate cleaning and brightening while it foams
- Use it in place of the more dangerous HF acid-based products

## Coil Cleaners

### Foam-Brite®

### Description

Foam-Brite's foaming power is incredible. It is a non-acidic, alkaline-based cleaner and brightener containing the best available biodegradable ingredients and a unique chelant/surfactant package to quickly penetrate and remove greasy soils and oxidation. Its high foaming formula helps lift greasy soils out of the coil, leaving finned coils clean and bright. It can be used to replace the more dangerous HF acid-based products for condenser coil cleaning because Foam-Brite does not contain any acids.

### Application

For cleaning and brightening air cooled condensers, permanent filters and other finned heating and cooling coils. It is an alkaline based cleaner that does all that an acid will do without the danger of an acid. Do not use on evaporator coils. Not for indoor use.

### DIRECTIONS FOR USE:

1. Goggles, gloves and other protective garments should be worn when using this product. System should be shut off.
2. Apply using any of the Nu-Calgon sprayers, or other durable, low pressure, plastic sprayer.

3. Prepare cleaning solution by mixing one part Foam-Brite with three to four parts of water. Add the water to the sprayer first, then add the cleaner.
4. Spray cleaning solution onto dirty condenser coils and allow it to remain in contact with the dirty surfaces for 5-10 minutes.
5. Rinse thoroughly with water.
6. Apply Cal-Shield® as a coil protectant and return system to service.
7. Rinse out sprayer, spraying wand and nozzle.
8. When the Foam-Brite container is empty, rinse, replace cap and dispose of properly.

### Packaging

1 Gallon	4178-08
2.5 Gallon	4178-05
55 Gallon	4178-01

# Select the Right Sprayer for the Cleaning Job

## No. 50P POLY SPRAYER

The No. 50P Poly Sprayer is constructed of high density translucent polyethylene. The nozzle is adjustable and the flow rate is controlled by a thumb lever. It comes with a 7" polyethylene pump and has a half-gallon (3 pint) working capacity.

**Part Number 4770-0**

## No. 220CP POLY SPRAYER No. 330CP POLY SPRAYER

These two sprayers are constructed of high density translucent polyethylene, incorporating a molded funnel top, a 2 and 3 gallon working capacity, reinforced 3 foot hose, Buna seals and chemical-resistant wand. Both utilize a 10" polypropylene pump and an adjustable nozzle.

**Part Numbers 4771-3 (220CP)  
4772-1 (330CP)**

## No. 300P POLY SPRAYER

The No. 300P is constructed of high density translucent polyethylene. It has a funnel-top for easy addition of chemical as well as emptying, and it has a 3.5 gallon capacity (3 gallon working capacity). It comes with a 10" polypropylene pump, extension tube with adjustable nozzle and five feet of vinyl hose.

**Part Number 4772-0**

## MULTI-PURPOSE HAND SPRAYER

Twenty-four fluid ounce, transparent bottle with positive action spray head. Ideal for small jobs, such as window units, water coolers, etc. Bottle is calibrated in ounces and milliliters. Also, calibrated for various use dilutions.

**Part Number 4768-W3**

## No. 200P WATER PRESSURIZING SPRAYER

It is constructed of a high density translucent polyethylene. It has a funnel top for easy addition of chemical as well as emptying. It has a 2 gallon working capacity, and it comes equipped with a 14" brass wand, brass shut-off, adjustable brass nozzle and a "quick-connect" fitting for attaching water hose.

**Part Number 4771-2**

## CAL-SHIELD® POLY SPRAYER

The Cal-Shield Poly Sprayer is constructed of high-density translucent polyethylene. It has a funnel top for easy addition of chemical as well as emptying and has a one gallon working capacity. It comes with a 10" polypropylene pump, brass handle and extension tube with adjustable nozzle, a wear-resistant hose and a pressure relief valve. It is highly recommended that this sprayer be dedicated to Cal-Shield applications.

**Part Number 4770-2**

## COIL GUN®

A different approach to coil cleaning - a "hose-end" sprayer that features 5 different mix ratio settings designed for coil cleaners. Also incorporates a quick disconnect capability. Utilizes a 2 quart capacity bottle and includes a foam wand.

**Part Number 4774-0**
