

TrueDRY™ DH150 Dehumidification System

Honeywell

Every homeowner is looking for increased comfort and energy efficiency, and with Honeywell TrueDRY™ DH150, you can offer them both. Perfect for larger homes, TrueDRY DH150 efficiently removes up to 150 pints of moisture from the air each day. In addition to dehumidification, TrueDRY DH150 also features an integrated ventilation control that introduces fresh, filtered air into the homes as stale excess moisture is removed. If you want to provide your customers with true comfort, use TrueDRY DH150 on your next job.

TrueDRY™ DH150 Dehumidification System

HIGH CAPACITY DEHUMIDIFICATION, VENTILATION, AND AIR FILTRATION

Integrated Solution —

Can be centrally ducted for whole-house control or operate un-ducted to address moisture problem areas.

Built-In 6" Ventilation —

Introduces fresh, filtered air into the home while removing stale, moist air, which allows you to meet local ventilation building codes.

Eco-Friendly —
Uses R410A Refrigerant.

Round and Oval 10" Outlet —

Easily ducted with 10" round flex.

High-Performance Water Removal —

Able to remove up to 150 pints while only using 6.9 amps.

Intuitive Wiring —

Simplifies installation and provides options for operation.

Automatic Water Removal —

Integrated drain port automatically drains water, which means no more buckets to empty.

MERV11 Air Filtration —

Extends dehumidifier performance and efficiency.

Easy-Access Service —

Removable side panels simplify maintenance and service.

Part Number	Description	Home Size	Humidity Removal*	Application	Key Features	Refrigerant
