VALVE INNOVATION

HYDRO-CORETM

**The Core of Any Professional
Hydronic Installation**

Manifold Features

Applications

Near-Boiler Loops

INSTALLATION KITS AVAILABLE:

Complete Near Boiler Piping Kits

Fully insulated supply and return lines available for select models.

Components Kits

Include all fittings required for field fabricating over 100 different boilers.

Union Connections

Are available to complete the manifold for all other applications.

Secondary Circuit Loops

HYDRO-CORE™

Advantages

Precise Spacing for Hydraulic Separation

Simplifies Pump Isolation

Simplifies System Purging Through the Boiler Outside the Boiler

Easily Purge, Fill, or Descale* a Boiler or Secondary Hydronic Loop

*Descaling may not be recommended for all boilers.
Consult boiler manufacturer for details.

The Old Way

The Hydro-Core Way

- Replaces 19 individual components
- Eliminates 13 connections
- Saves space
- Saves nearly 2 hrs. of labor

Flange Options

Separate Union Connection(s) Required

Flange Right

Most Near Boiler Applications

Flange Left

Most Secondary Loops

No Flange Double Ball Drain

For Boilers w/ Integral Circulators

Union Connections

Separate Component Required for Installation

- Choice of 3 styles
- Plugged Pressure Gauge Port model included with all Installation Kits

**With 1/4"
Plugged Pressure
Gauge Port**

**Connection
Only**

**With Multiple
Device Ports**

Plugged Connections for:

- (2) 3/4" devices
(Pressure Relief Valve,
Low Water Cutoff) OR
- (1) 3/4" device &
(1) 1/4" Pressure Gauge

Pump Connections

Optional Component

Choice of 2 Rotating Flanges

- **Rotating Flange**
 - Snug-fit detachable outer flange provides greater control during installation.
 - Included with Wall Hung Boiler Kits
- **Rotating Flange w/ “Y” Strainer**
 - Snug-fit detachable outer flange
 - Plugged $\frac{1}{2}$ ” port in strainer cap for installation of drain valve
 - Included with Floor Standing Boiler Kits

Installation Kits Available for Common Boiler Orientations

***Floor Standing
Side Mount***

***Floor Standing
Top Mount***

Wall Hung

***Wall Hung
w/ Integral
Circulator Pump***

Kits to Fit Over 180 Different Boilers (and counting!)

Complete Near Boiler Piping Kits Copper Tubing

**Fully fabricated copper supply & return lines
available for select boilers**

Requires Hydro-Core Manifold (Flange Right)

- One-piece, type-L bent copper tubing
- Outfitted with the right connections for your specific boiler
- Preassembled with the matching union end
- Fully insulated in high density EPDM foam insulation
- Fits 6 1/2" circulator pumps

Complete Near Boiler Piping Kits

Flexible Stainless Steel Tubing

Fully fabricated flexible 304 stainless steel supply & return lines available for nearly any boiler with an integral pump

Includes:

- Hydro-Core Double Ball Drain Manifold
- 2 fully fabricated supply & return lines assembled with 12" lengths of flexible stainless steel tubing
- Outfitted with the right connections for your specific boiler
- Fully insulated in high density EPDM foam insulation
- Longer lines available upon request

Near Boiler Component Kits

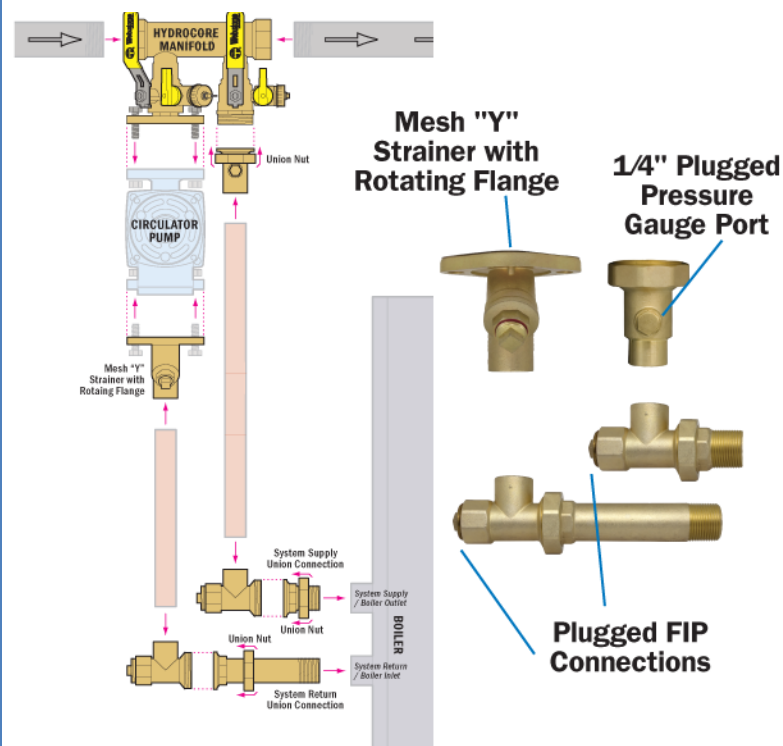

Prepackaged sets of components required to field fabricate the near boiler loop

- Available for common boiler orientations
 - Floor Standing / Top Mount
 - Floor Standing / Side Mount
 - Wall Hung
- Requires designated Hydro-Core Manifold

See Webstone's [Boiler Compatibility Resources](#) to select the appropriate kit for your boiler.

Near Boiler Component Kits

Floor Standing Boilers w/ Side Mount Connections Shown

Work Smarter

Plan Your Next Installation in 3 Simple Steps

1. Identify your boiler & select the corresponding Installation Kit.
2. Determine your pipe run size & connection type.
3. Select the proper Hydro-Core manifold.
