

Basket Strainer DESIGNER SERIES

300 Grade Stainless/Brushed Stainless Steel Sink Strainer

SS-306 Snap-N-Loc®

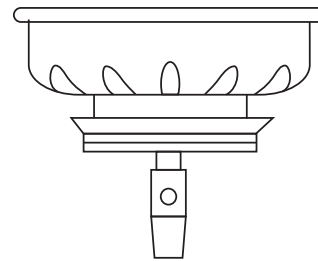

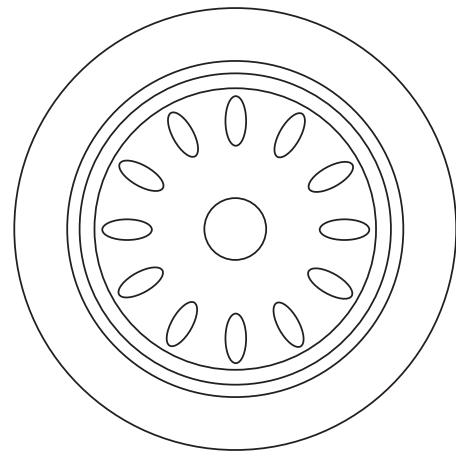

Description

The most innovative basket strainer in history. The basket seals to the body through a ball bearing in the post creating a positive leakproof seal. Deep cup body and basket are 300 series stainless steel and both are buffed creating a high polish finish. Hand knob and post are chrome plated brass and the ball bearing is 300 series stainless steel. Zinc nuts are standard. Available with brass tail nut and locknut (SS-306B).

This brushed stainless / satin nickel Snap-N-Loc® basket strainer fits all 3-1/2" sink openings and is easy to install. It is dishwasher safe and the ME-150 acrylic coating guarantees a lifetime warranty against scratches, discoloring or tarnishing.
