

NuTone®

EZFit™ Ventilation Fan

Presenting the NuTone EZFit™ Ventilation Fan

Quickly replace
existing ventilation
fans from the
room-side with
new EZLock™ tabs

Eliminate foggy mirrors,
moisture, and odors faster
than typical existing fans.

Enjoy a more comfortable
and relaxing environment than
typical existing fans provide.

* Installed performance compared to typical installed fans.

MAY 2014

EZFit™ offers a variety of features that make installation from the room-side a breeze.

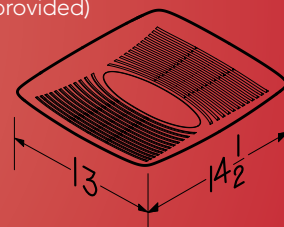

- EZLock™ Tabs secure the fan directly to the ceiling drywall, eliminating joist or truss mounting.
- EZConnect™ wiring connectors eliminate clumsy wire nuts.
- EZDuct™ connector enables duct attachment from inside the housing, without going into the attic.
- EZHold™ pre-installed blower attachment screws mean no third hand is needed.

- EZFit's slim housing design fits in virtually all ceiling spaces.
- 80 CFM and a quiet 1.1 Sones.
- UL Listed for use over bathtubs and showers when connected to a GFCI protected branch circuit.
- Patent-pending design.

Model EZ80N

- Housing: 12" L x 10-1/2" W x 5" H
- Grille: 14-1/2" L x 13" W
- Duct Connector: 4" oval or 3" round (transition provided)

EZ Installation in four simple steps

Insert housing from room-side and rotate EZLock tabs outward by turning the screw.

EZLock tabs provide firm pressure contact to secure the fan to the drywall (view shown is from above).

Re-attach the duct and wiring from the room-side.

Insert and secure the blower into the housing.
