Magnetized Pocket Extension Claw

Model
PBS2

The PBS2 pocket extension claw is great for grabbing small parts just out of your reach. Its magnetized claw makes it easy. It extends to just under two feet to give you easy access to that spot your arms can't quite reach. It also makes a great back scratcher.

Features

- Telescopes between 6" and 20 1/2".
- Clips to your pocket just like a pen.
- Magnet on the claw for grabbing metal parts.
