

## Circulating Pumps with a Whole New Twist

The newest addition to Honeywell's full line of hydronic heating and potable water solutions.

- **Twist-To-Fit Universal Flange** — Rotates 90° to fit most installations with a single product
- **Minimize Stock** — Three pump sizes cover every application
- **3-Speed Versatility** — Maximize efficiency and provide sufficient flow rates with a single pump
- **Universal Design** — Replace a wide range of competitive models with just one brand
