

PC Universal Pilot Couples
Vertical (PCA) and Horizontal (PCB)

PC UNIVERSAL PILOT COUPLE

Universal Replacement, Modified 4-Port Pilot Burner / Thermocouple Combination

FEATURES

- Reliable ignition of gas burners.
- Stable flame pattern virtually unaffected by drafts and pressure variations.
- G bushing connector for single thermocouple thermopilot valves and relays.
- Vertical or horizontal inlet tubing connection available.
- Long life stainless steel casing, inlet filter screen, and orifices for natural or LP.

SPECIFICATIONS

Output.	13 millivolts nominal, open circuit
Port.	50 (universal replacement)
Connector.	G Bushing
Base Orifice Fitting.	1/4" tube, external thread, straight
Mounting.	Horizontal or vertical
Gas Consumption.	500 Btu/hr, approximately
Agency.	IAS certified

Model Number	Inlet	Lead
PCA50L14L48	Vertical	48"
PCB50L14L48	Horizontal	48"

Gas Type	Orifice
Natural and Mixed	TL .014
L.P.G.	TL .010
