# 280 Series

## Features

This series of submersible pumps is designed for use in residential or light commercial dewatering and wastewater applications and can be used to transfer effluent or unscreened raw sewage. The innovative vortex impeller design reduces the risk of clogging and allows each pump to pass 2" (50 mm) spherical solids. These durable cast iron pumps include a powder coated epoxy finish to prevent corrosion, and are designed to provide great heat dissipation from the motor, ensuring a long service life. As with every Zoeller pump, each one is 100% pressure-tested, submerged and run to ensure quality and reliability for years of trouble-free performance!

- Automatic models include a float-operated, 2-pole mechanical switch, a stainless steel float guard and switch arm, and a buoyant polystyrene float.
- For nonautomatic pumps, variable level control systems and containers of various sizes are available for longer cycles.
- Double seal models improve bearing lubrication and aid in the prevention of leaks and damage to seals or bearings during dry run conditions.
- Includes a stainless steel handle for easy installation and removal.
- All models are hermetically sealed to be watertight, dust-tight, and completely submersible.

Reserve Powered Design: For unusual conditions, a reserve safety factor is engineered into the design of every pump.

## Specifications

### Motor Characteristics

Horse Power	1/2 or 1 HP
Voltage	115 - 575 V
Phase	1 or 3 Ph
Hertz	60 Hz
RPM	1750 RPM
Type	Permanent split capacitor or 3 phase
Insulation	Class B
Amps	1.4 - 10.3 Amps

### Pump Characteristics

Operation	Automatic or nonautomatic
Auto On/ Off Points	15-1/4" / 5-1/4" (38.7 cm / 13 cm)
Discharge Size	2" or 3"
Solids Handling	2" (50 mm) spherical solids
Cord Length	10' (3 m) auto, 15' (5 m) nonauto standard
Cord Type	UL listed, 3-wire neoprene cord and plug
Max Head	35' (10.7 m)
Max Flow Rate	179 GPM (678 LPM)
Max Operating Temp	130° F (54° C)
Cooling	Oil filled
Motor Protection	Auto reset thermal overload (1 Ph)

### Materials Characteristics

Cap	Cast iron
Motor Housing	Cast iron
Pump Housing	Cast iron
Base	Cast iron
Upper Bearing	Ball bearing
Lower Bearing	Ball bearing
Mechanical Seals	Carbon and ceramic
Impeller Type	Non-clogging vortex
Impeller	Cast iron
Hardware	Stainless steel
Motor Shaft	1117 carbon steel
Gasket	Neoprene
